What do you consider to be the main strength of this project meeting?

6 réponses

The team has experiences in previous projects.

To enable the teachers of the different countries to discuss all the topics that are important to be approached in their countries and the best way to achieve the goals they want.

Jointly analyze the project and the tasks of each country

Define dates for the mobilizations and the roles of each school

Socializing with partners

Clarify doubts about the procedures and topics to be analyzed

This meeting was the opportunity to plan the whole project and meet new participant teachers.

We had the opportunity to work in Swedish School which is very different from Greek and it was a very strong experience. Also, we had a taste of the overall project and we were able then to inform with precision our colleagues back home about what's next.

To meet and to receive information about the structure of the Erasmus+ project WE-ACT!

Were there any weak points?

4 réponses

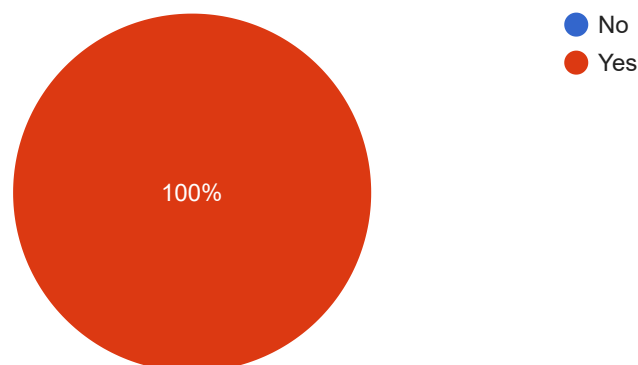

No

Other factors
